

ADHESIVE BACKED CORD CLIPS

Fastest, most efficient way available to organize wire, cords and cables. Just remove clips off adhesive strip of two and stick into place. Save 60 percent time over other methods. UL recognized nylon clips adhere to any smooth, clean, hard surface including wood, plastic and metal. Wires, cords or cables slip in or out easily, yet are retained securely. Smooth, rounded corners and edges protect wires and installers' hands. High adhesion, aggressive rubber-based adhesive. Works in a service temperature range 0°F-120°F continuous.

 UL File Number E53159
(not all cord clips are UL Recognized)
